ALL ABOUT PDX SQUARED 2026

On May 15 and 16, 2026, 100 Photographers will be set free in Portland as they embark on one of the most unique and creative photo events in the country - presented only by ASMP. This long-running event is part of the new ASMP National "City Squared" series of events being introduced in 2026!

Each participant is randomly assigned a "square" of the City of Portland where they will have 24 hours to create their best image(s) before returning for an evening of live judging, community, frivolity, and more where prizes are awarded to the top images in the six primary categories and four "Craft" awards.
