

Michael Mauney Endorsement of Bob Carey

I know Bob Carey through our work together in the North Carolina chapter, and I'm happy to endorse him for full board term on ASMP's National Board. I won't repeat his impressive resume of qualifications which you can read in his Candidate Statement, I endorse him because of his personal warmth, his vast experience in our profession, and because he shoots great photographs. Years of teaching young photographers has provided him with a critical eye and a kind heart, plus a firm hand for dealing with the inevitable problems. My personal opinion is that Bob loves people, and he loves teaching, and he loves photography. I can't think of better qualifications for serving on our National Board. Bob's insight into emerging photographers and what they are experiencing as they enter the professional world seems to me to be a particularly valuable asset for the National Board of ASMP.
